

PROVIDER PERFORMED MICROSCOPY TESTING

REQUIREMENT

Clinical Laboratory Improvement Amendments (CLIA) requires every facility that tests human specimens for the purpose of diagnosis, prevention, treatment, or the assessment of the health of a human being to meet certain Federal requirements.

One of these requirements is periodic competency assessment.

Failure to follow these requirements could be grounds to revoke an individual site's CLIA license and that site would be unable to perform any laboratory testing.

NON-WAIVED MICROSCOPY TESTING

I have been trained and am competent for the following Non-Waived Microscopic tests which I expect to perform in my course of work:

- ☐ Vaginal pool fluid smears for ferning
- ☐ Potassium hydroxide (KOH) preparations
- ☐ Vaginal wet mount microscopy

- ☐ Pinworm examination
- ☐ Urine sediment microscopy
- ☐ Other (please describe): _____

Signature: _____ Date: _____

Providers that perform microscopy will be required to complete a competency test every six (6) months. They will receive an email from MTS (University of Washington) with an internet link to begin the online competency. Each test type takes approximately 2 minutes to complete.
