

What is it? UNM Care and Out-of-County Care are programs to help you pay medical costs for health care services at UNM Hospital. UNM Care and Out-of-County Care are not insurance. Our goal is to help you pay for the care you need, so you don't postpone or avoid getting treatment.

Who can apply? UNM Care is open to Bernalillo County and Sandoval County residents who need help paying for medical costs. Out-of-County Care is open to people who live in another New Mexico County (not Bernalillo or Sandoval).

How do I apply? Make an appointment with Patient Financial Services. During the appointment you will meet with a Representative in-person or over the phone to complete the application.

How long can I be enrolled? If you are approved, UNM Care covers medical costs at UNM Hospital for up to 1 year. After 1 year, you can reapply, which can be a lot easier if nothing in your application changes. Out-of-County Care covers costs for up to 6 months. Both programs also cover the cost of services received in the 6 months before approval. If your application is not approved, those services will not be covered. You can appeal or reapply if your application is denied.

You need to provide documents to help us confirm who you are (identity), where you live (address), how much money you make (income), and how much you have in your bank accounts (assets). If you don't have these documents, let us know and we will work with you to find others that work. UNM Hospital has the right to decide which documents will work.
