

AODD / INTERVENERS IN EDUCATION

A Message from NMPED

“Evidence-based interventions for individuals with deafblindness are not universal. Although these are evidence-based interventions, they should be individualized for a particular student. In the education setting, the IEP team will develop the plan for that student. The IEP team shall review an IEP at least on an annual basis.”

Outcomes

- Participants will be able to define deaf-blindness and describe how it impacts learning.
- Participants will be able to define intervener and describe how interveners support education of a child who is deaf-blind.
- Participants will understand the use of interveners on a national level and how different states recognize interveners.
- Participants will be able to identify how to get support for children and youth who are deaf-blind in New Mexico.

Who is Deaf-Blind?

Definition of Deaf-Blind

Federal definition for students in early childhood special education (3-5) and school aged special education programs (6-21):

Deafblindness means concomitant hearing and visual impairments, the combination of which causes such severe communication and other developmental and educational needs that they cannot be accommodated in special education programs solely for children with deafness or children with blindness.

For infants and toddlers receiving Part C early intervention services, Deafblindness is defined as:

Combined hearing and vision impairments or delays, the combination of which causes such severe communication and other developmental and intervention needs that specialized early intervention services are needed.

Definition of Deaf-Blind

Deaf-blindness refers to individuals with *varying* degrees of vision and hearing impairments. Most children and youth who are deafblind have some vision and hearing.

Deafblindness

Impact of Deaf-Blindness

How do we give students who are deafblind consistent access to their environment and peers?

Intervener

Definition of Intervener

A person who works consistently one-to-one with an individual who is deaf-blind to help them gather information, develop and use communication skills, and establish relationships.

Definition of Intervener

Interveners provide consistent access to instruction and environmental information that is usually gained by typical students through vision and hearing, but that is unavailable or incomplete to an individual who is deaf-blind.

Part of Educational Team

Participates in Therapies and Activities

Takes Direction From the Teacher

Participates in IEP Meetings

Intervener: Access to Communication

Each student with deaf-blindness is unique and communicates differently. An intervener may need to be knowledgeable in a different communication methods that are specific to that student.

Here is a list of possible communication forms an intervener may use when working with a student with deafblindness:

- American Sign Language (ASL)
- Tactile Sign Language
- Haptics
- Tactile Fingerspelling
- Braille
- ProTactile Communication
- Vocal Language
- Gestures
- Touch Cues
- Tangible Objects
- Pictures

Where are interveners recognized?

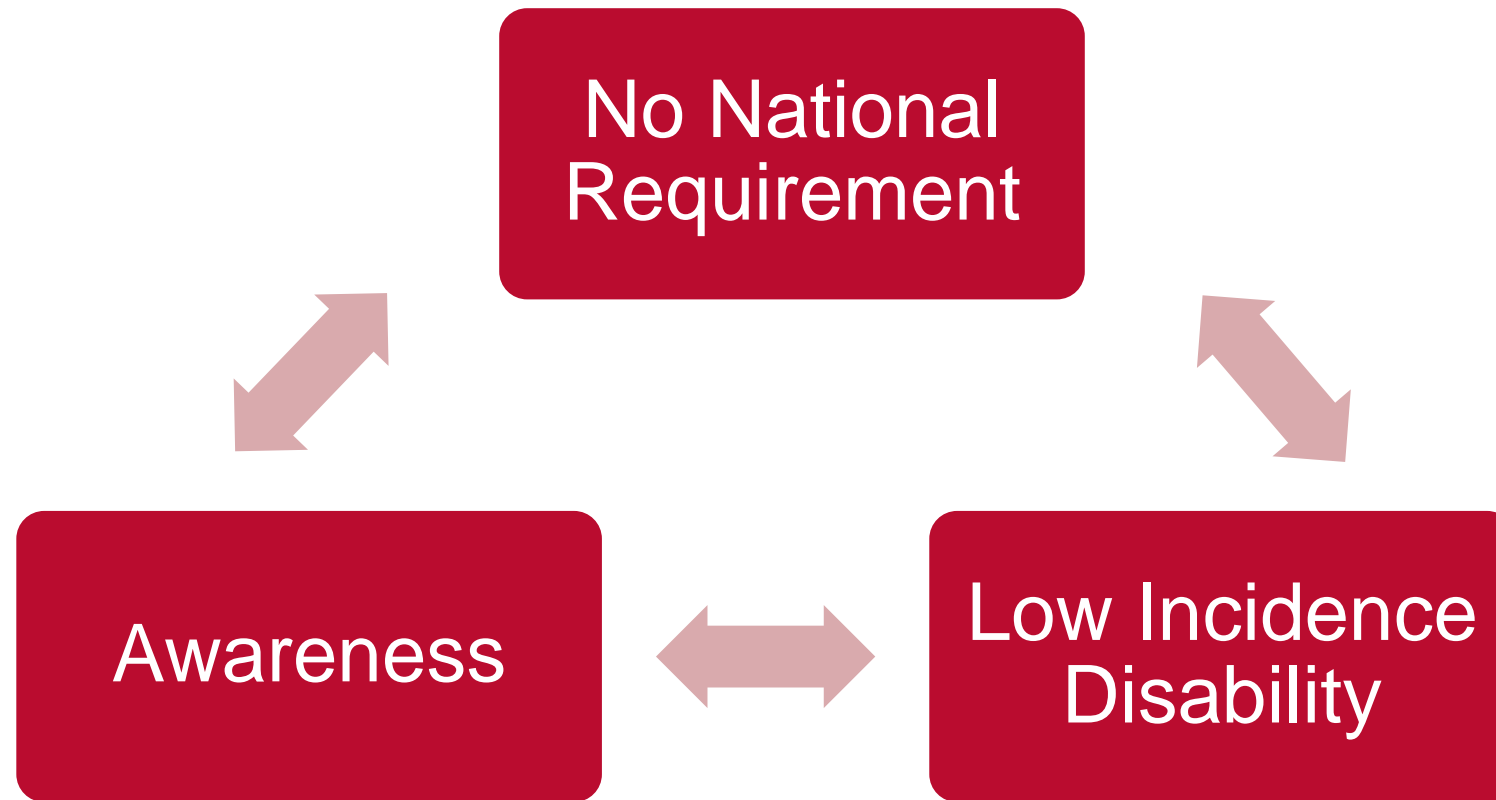

Texas
Colorado
Illinois
California
Minnesota
Utah
Virginia
West Virginia

Wisconsin
Arizona
Oregon
Indiana
Louisiana
Ohio
Washington

What impacts students with Deafblindness from being provided with an intervener?

Let's Review...

- Deaf-blindness impacts access to the environment, learning opportunities and peers.
- Interveners are one-to-one supports for individuals with deafblindness who give the child access to information that would otherwise be missed.
- There is an intervener movement to add interveners as a related service in schools nationally.

Deaf-Blindness in New Mexico

Where can you get support for intervener training and deaf-blind training in New Mexico?

Project for New Mexico Children and Youth Who Are Deaf-Blind

Intervener Credential

Educational Teams

Parents/Caregivers

Project for New Mexico Children and Youth Who Are Deaf-Blind

- Evidence-based interventions are important for students who are deafblind to ensure they have access to their classroom, their peers and the curriculum.
- The Project for New Mexico Children and Youth Who Are Deafblind can support you to identify training's for anyone working with a child or student between the ages of 0-21.
- The project provides technical assistance to families and educational teams.
